Why is the most important and largest capital expenditure ever proposed for Greene County, NY not being put to a public referendum if only out of respect to the constituents and their property rights and rights as citizens? After I retired, in I assisted ReEntry Columbia with initiating in 2015, an art class program in the jail. As a volunteer I taught alternating art classes for men and women. Many of the inmates were from Greene County and told me how thankful they were to be incarcerated in Columbia County. My professional experiences with the jail, staff and leadership have been positive. We already have a contract with and well functioning relationship with Columbia County. On the other hand, sharing services with Columbia County would translate to a savings of well over \$4,000,000 per year. As a Greene County taxpayer, I am concerned that a decision to abandon the shared services option is imminent. I understand that Columbia County has determined that the shared services approach would be beneficial to taxpayers in both counties; and that NYS is supportive of the strategy and will provide additional financial incentives as a percentage of the multi-year cost savings.</i></p> <p><i>I hope that our elected legislators listen to, and consider, the residents who care about transparency in our government and their own taxes, as well as the debt that our children will</i></p>

This is especially true since a far less cost alternative is available through a regional lock-up partnership with Columbia County. The 2-County solution is supported by Columbia County and has been encouraged by the NY DOJ and the Governor's Shared-services initiative. For those who argue County pride in support of spending \$45 million for a jail, why not attract a regional garbage dump or a nuclear waste depot? Glowing in the dark would make us unique! We could arrange tours in hazmat suits! Pride? For a jail? A jail that would be more distant and less convenient for court access than the Columbia County alternative? This makes no taxpayer sense at all.  The only reasonable course of action is to complete the exploration of the joint County option and compare both bonding/debt service and operating costs to the Coxsackie Jail option. Only then can the appropriate comparisons be made and the taxpayers interests be served.</i>
